Overview of The Process

This information pertains to the video you have likely seen entitled: 'SETTLE ALL CLAIMS' which is essentially an interview with Patrick Devine about using the US Trustee and Bankruptcy Court to liquidate all accounts, bonds and instruments being held and traded in YOUR NAME.

The basis of this procedure is such that between YOU and You, which are two different legal entities, and such that You are domiciled and active in a state which is foreign to the state in which YOU are domiciled, You are actually an international organization as per Public Law 79-291.

Up until now, the state is claiming de facto ownership of YOU and the accounts related therewith and is deriving all of the benefit and they are keeping this information from you through lack of full disclosure. This is fraud which vitiates all contracts, you have previously signed on behalf of YOU.

This process begins with authenticating your certificate of live birth and baptismal certificate (to be discussed later) and getting these recorded in the public because they are public documents and are the underlying evidence to be used later in the process.

In this process, we then proceed to create other documents such as claims and deeds and then start filing our 'Claim' as the true owner and secured creditor of YOU and the related accounts and instruments.

As an international organization you have certain exemptions and immunities which you can read about in PL 79-291. Further, as the true 'Claimant' you will be filing one or more superior liens on YOU and related accounts. This is done through the Non-UCC Filing Statements listing You as the true creditor. Once the liens are filed, you are a 'Secured Creditor'.

What is a 'Non-UCC Filing Statement'? Good question. We are operating in the private. UCC docs are filed in their system, which is in the public domain. One can not generally interact with the other outside of an expressed contract. We keep what is private, in the Private side. The public system makes allowances for 'Non-UCC' filings. There is an excellent article in the Members Forum, post #175 entitled "Non-UCC Filings & Unrecorded Security Interests" which you should read.

Instead of 'filing' our documents in their system, we enter them into the realm of private international commerce by way Registered Mail in the postal system. The Registered Mail number becomes the 'document number' and having been entered into the international postal system, the document now enters the realm of commerce where nobody can interfere with it.

DRAFT

Overview of The Process

Now, in the following instructions we show how we are setting up the appropriate documents, what we are doing with them, how they are used and so on.

In general, we will create a Foundational Non-UCC Filing Statement particular to a specific department of the corporate government and include in this 'Non-UCC Filing Statement' the underlying documents and accounts upon which the corporate government has been creating financial instruments, accounts and beneficial interest on their own behalf. We will give them 3 days to commence liquidation upon our order as the secured creditor/true beneficial owner.

We may send document packages out to several different departments in the corporate government. We bundle certified copies of all of these documents and we deliver this complete package to the US TRUSTEE as an advisement. Now, should any of the government departments fail in their obligation to us and our order, the US TRUSTEE would follow up and if or when necessary, initiate an involuntary liquidation of those accounts through the bankruptcy court. So the BK Court is only an option of last resort and would be the 'enforcement' of the order, if necessary.

So that is the idea. Please bear in mind that this is a new process. We are cutting edge here in research and experience. Surely as we advance in our experience, we will learn new things and you can expect changes in the approach as we grow in this process. Changes are a good thing. It means we're learning and getting better! So welcome them.

Pay very close attention to the Lighthouse Law Club Members Forum. All updates and news will be posted there ASAP. In fact, there is additional discussion and collateral material in the Forum which will fill in some of the gaps and provide more detailed analysis than you'll find in this simplified step by step procedure.

We hope you can benefit greatly from this effort!

PS. When your accounts are liquidated and disbursed, don't forget the Law Club and the engine working for freedom for all!

**In America: the GREAT SEAL's 13's are "We the People":
Banking and Property protections, because the Constitution is a
Governmental Banking Protection Contract with the People.**

In the present U.S. Governmental Banking system, you are the Secured Creditor, therefore you have to REGISTER your Property and Banking Claims using a self-initiated and filed NON-UCC under a **13 digit** Registered Mailing number to be held in your private records. You can then present your Registered Self-certified NON-UCC copies to any foreign claim jumpers to DEFEAT them.

The 13 stars stand for when a Man comes of Age and his understandings; it is also given a 13 digit Foreign International Organization exemption #; PA-"a Foreign Grantor Trust EIN" -US. Example = PA123456789US when the "Foreign Grantor Trust - EIN is requested from IRS Treasury in Philadelphia, PA.

The 13 stripes in the Flag means that the Government is to protect and defend the People when it is flown.

The **2 Wings** stand for being an **Amer** on the Land and an **Admir** on the Sea; as an International Organization, an American Self-Governmental Principality.

The **one Head** stands for the **one** lawful National Treasury of this Nation.

The 13 leaf - Right Leg stands for the individual U.S. Post Banking Office of a Man.
Example: Your U.S. Post Office exemption # in the Postal System would be IA 52591-8236 US

The 9 tail feathers are below the Eagle, therefore they stand for the DEBTOR "bankrupt" **9 digit** accounts.

The 13 arrow - Left leg stands for U.S. Post Office Mail/Banking - Registered Mail Delivery system.
